Women world over are recognized as the catalyst for change. Also, I believe that if a woman is empowered, an entire nation is empowered because women are more inclusive by nature hence an educated and empowered woman will ensure her Children are also educated and well catered for and the chain goes on and on.

Being an African woman and an Immigrant, I have experienced the negative sides of Racism and lack of women empowerment. Women in Africa for example, are referred to as the weaker sex/gender, therefore, they are not considered as a fit for certain positions in Power/governance. Racism on the other hand impedes the culture of inclusion and fair chance. I'm all about eliminating Racism, empowering Women.

YWCA is working to become a more multicultural, equitable organization. What multicultural assets (i.e. culture, language, experience, immersions, etc) would you bring to the organization? \*

I'm passionate about the goals and aspirations of YWCA Madison on Promoting peace, justice, freedom and dignity for all. Also, I wish to be a part of the community that strives to eliminate barriers that exist for individuals looking to become self-sufficient and advocate around issues that most affect marginalized communities. I'm very positive that I will add to the already diverse cultures being propagated by YWCA Madison.

What is your personal commitment to continued learning around race & gender equity learning? \*

My personal commitment is to learn, unlearn and support the foundational understanding of the system of racial inequity and what we can do to transform it. I will attend seminars, symposiums, Summit and programs on race and gender equity whenever they are available.

Do you speak any language other than English? If yes, list languages and reading and writing proficiency: \*

Yes, I speak Hausa. I can read and write too.
